Core concepts, worked examples and practice prompts

Swing structure and trend definition

A sequence of confirmed lows 98,101,103 and highs 105,108,111 describes rising structure.

Breakout, retest and failed breakout

Range 100–105, close 106, pullback low 105 and close 107 is a possible retest sequence.

Inside bars and outside bars

Mother H=110 L=100; next H=108 L=102 is inside; H=112 L=98 is outside.

Pin bars, hammers and shooting stars

O=104 H=105 L=96 C=105 gives body 1 and lower wick 8, a long-lower-wick example.
